

# Planter Boxes

Fytogreen provide custom planter boxes suitable for nearly any application. Our bespoke range and species knowledge ensures we can provide innovative sustainable greening solutions.

Whether it be an indoor atrium area, treed office space, shopping center, a stunning showroom or terrarium. Our planter boxes are also ideal for extensive outdoor commercial applications, breathable car park barriers, interior fit outs or residential balconies.

With many options available, Fytogreen guides the project through design development, project management, supply, install, planting, and on-going maintenance.

A cost-effective, permanent or temporary greening solution utilizing our unique water reservoir system.
